SUB E
14. (Amended) The multi-layer composite structure of claim 11 wherein said foam core also includes a polyvinylchloride material to form an acrylic-polyvinylchloride foam core.

AZ
SUB E
15. (Amended) The multi-layer composite structure of claim 13 wherein said foam core also includes a polyvinylchloride material to form an acrylic-polyvinylchloride foam core.

Please cancel claim 6, 7 and 8 with neither prejudice nor disclaimer.

Please add new claims as follows:

SUB D 3
AZ
23. (New) A multi-layer composite structure, comprising an outer layer of acrylic and a polyvinylchloride material; and a foam core attached to at least a portion of said outer layer, said foam core being comprised of an acrylic and a polyvinylchloride material; wherein said outer layer attached to said foam core by an acrylic adhesive.

24. (New) The multilayer composite according to claim 1 or 11, wherein said composite comprises a boat hull, a cooler, or a camper top.
